👉 MOST PROUD OF

Courage I had

I always work to take a sinking ship and try to make it float

Persistence & Loyalty

I always have shown my willingness and attitude, even in front of hard moments in life and work

Constant Improvement

I'm always obsessed in improve myself and get better than I was before

Inspiring men in tech

I'm a hard-working and passionate Computer Science and Engineering's student with huge dreams

LIFE PHILOSOPHY

"Talent without hard working is nothing!"

PROFESSIONAL EXPERIENCE

App Designer & Developer

U.Porto Media Innovation Labs

 September 2018 – December 2018

 Porto Center, Porto, PT

 <https://mil.up.pt/>  https://sigarra.up.pt/feup/pt/web_page.inicial

 <https://www.bright.pt/>  <http://www.acreditar.org.pt/>

- Designing and development of the interface of the "Everyone Is a Hero" app for mobile devices' Android and iOS operative systems
- Designing of the mobile app in Adobe Illustrator CC and Adobe Photoshop CC
- Development of the mobile app in Unity 3D, C#, SQL and JSON
- The "Everyone Is a Hero" app was developed with the collaboration of U.Porto Media Innovation Labs, Faculty of Engineering of University of Porto (FEUP), Bright Digital and Acreditair
- The app aims to offer interactive support and information to families, educators and volunteers of children who suffer of cancer diseases
- Other goal of the app, it's to, in a near future, be linked to the video game app for these same children, called "Hope", that's being also developed by Bright Digital
- Presentation in the TalkABit 2019 conference

Scientific Research & Development Internship

LSTS (Laboratório de Sistemas e Tecnologia Subaquática / Underwater Systems and Technology Laboratory)

 October 2018 – November 2018

 Paranhos/São João do Porto, Porto, PT

 <https://lsts.fe.up.pt/>  https://sigarra.up.pt/feup/pt/web_page.inicial

- Scientific Research and Development Internship in Endurance Project in LSTS (Laboratório de Sistemas e Tecnologia Subaquática / Underwater Systems and Technology Laboratory) at Faculty of Engineering of University of Porto (FEUP)
- Research and Development Project based in the context of remote control of AUVs (Autonomous Underwater Vehicles) with a continuous operation duration of more than 48 hours, using the RIPPLES and NEPTUS frameworks/tools, developed by LSTS (Laboratório de Sistemas e Tecnologia Subaquática / Underwater Systems and Technology Laboratory)
- Development of some features to RIPPLES and NEPTUS frameworks/tools, using Java and Spring Boot framework

PROFESSIONAL EXPERIENCE

Scientific Researcher & Developer

NOVA LINCS (Informatics' Labs at Faculty of Sciences and Technology, New University of Lisbon - Caparica Campus) and Carnegie Mellon University Portugal Program

 February 2017 – January 2018

 Monte de Caparica, Setúbal, PT

 <http://hyrax.dcc.fc.up.pt/>

 <http://nova-lincs.di.fct.unl.pt/>  <https://www.fct.unl.pt/>

 <https://cracs.fc.up.pt/>  <https://www.fc.up.pt/fcup/index.php>

 <http://www.cmuportugal.org/>  <https://www.cmu.edu/>

- Scientific Research and Development in Hyrax Project in NOVA-LINCS' Labs at Faculty of Sciences and Technology, New University of Lisbon - Caparica Campus (FCT NOVA | FCT-UNL)
- Research and Development Project based in the context of Edge Computing
- Developing work in the theme "A producer/consumer work queue eventually consistent in Android", under the supervision of Prof. Hervé Miguel Paulino
- Developing of a prototype in Android and Java, called Hyrax - DiCE (Distributed Collaborative Computing at the Edge)
- Final Approval Grade: 17 of 20

Waiter

Delmare Café & Beach Club

 June 2016 – August 2016

 Costa da Caparica, Setúbal, PT

 <http://www.delmarecafe.com/pt-pt>

- Wait service
- Organization of events (Weddings, Bachelor parties, Birthday parties, Night parties & Sunset parties)
- Bar service
- Cleaning service

Information & Technology Support Technician

RE/MAX Portugal and MaxFinance Portugal (RE/MAX Central and MaxFinance Central Offices)

 November 2012 – March 2013

 Rato, Lisbon, PT

 <https://www.remax.pt/>  <https://www.maxfinance.pt/>

- Enterprise's computers maintenance
- Marketing (Production of brochures & leaflets)
- Enterprise's social networks management (Facebook page management of the company)
- Emailing (Sending e-mails & info-mails to company's contacts)

Professional Intern\Trainee

Fnac Portugal (Fnac Chiado Store)

 November 2011 – January 2012

 Baixa-Chiado, Lisbon, PT

 <https://www.fnac.pt/>

- Retail and stock replacement (Sections of Computers, Software, GPS & Mobile Phones)
- Event photographer - "Encontro o Natal ao Anoitecer"
- Final Approval Grade: 17 of 20

VOLUNTEERING

Civil Rights and Social Action's Volunteer

Lifeshaker Associação/Upgrading Participation E6G (Civil Rights and Social Action Initiative from Municipal Council of Almada)

 January 2018 – March 2018

 Monte de Caparica, Setúbal, PT

 <http://www.lifeshakers.blogspot.com/>

- Participation and volunteering in the following social activities: Caparica Photovoice (Photography at Neighborhood), ABC do Judo (Judo's Training Classes), Diz Que Sim (Dancing's Classes), 123 Capacitar (Children's Didactive Games), De Mim Para Nós (Volunteering Services), AJA (Volunteering Services), Up Web (Design & Illustration), Corta o Preconceito (Videos' Productions), Micro Observatório Juvenil (Conversations, Interviews & Talks) and English Explanations (Preparatory School - 5th & 6th Year)

Education's Volunteer

ExpoFCT 2016 (Education Annual Event at Faculty of Sciences and Technology, New University of Lisbon - Caparica Campus)

 April 2016 – April 2016

 Monte de Caparica, Setúbal, PT

 <https://www.expo.fct.unl.pt/>

- The ExpoFCT it's an annual event of presentation of the College and its Educational Offer, that have the main goal to facilitate the choice of the superior formation to pre-university young people, through demonstrations/activities in the following Science and Engineering areas: Cell & Molecular Biology, Biochemistry, Conservation-Restoration, Mathematics, Applied Chemistry, Environmental Eng., Biomedical Eng., Civil Eng., Electrical & Computer Eng., Physics Eng., Geological Eng., Micro & Nanotechnologies Eng. and Chemical & Biochemical Eng.
- Volunteering in the following activities, at ExpoFCT 2016: Fiat Lux - À boleia dos fotões! and Pong

Education's Volunteer

AlmadaForma (Education Initiative from High School of Monte de Caparica)

 June 2012 – July 2012

 Monte de Caparica, Setúbal, PT

 <https://www.almadaforma.net/>

- Craftworks and handicrafts (Social Initiatives from High School of Monte de Caparica and Municipal Council of Almada)
- Management of documents (Certifications and Diplomas of some students that frequented some courses of the AlmadaForma's Training Center in High School of Monte de Caparica)

Q SCIENTIFIC RESEARCHES

Hyrax Project

NOVA LINCS (Informatics' Labs at Faculty of Sciences and Technology, New University of Lisbon - Caparica Campus)

📅 February 2017 – January 2018

📍 Monte de Caparica, Setúbal, PT

🌐 <http://hyrax.dcc.fc.up.pt/>

🌐 <http://nova-lincs.di.fct.unl.pt/> 🌐 <https://www.fct.unl.pt/>

🌐 <https://cracs.fc.up.pt/> 🌐 <https://www.fc.up.pt/fcup/index.php>

🌐 <http://www.cmuportugal.org/> 🌐 <https://www.cmu.edu/>

- A 3rd year's scientific research and development project, of the BSc. degree made in FCT NOVA, done between February 2017 and January 2018. This project it's called Hyrax Project (Crowd-Sourcing Mobile Devices to Develop Edge Clouds). This project it's based in the context of Edge Computing. I did this scientific research and development project, representing NOVA LINCS (Informatics' Labs at Faculty of Sciences and Technology, New University of Lisbon - Caparica Campus) and under the supervision of Prof. Hervé Miguel Paulino
- This project, had also the collaboration of Faculdade de Ciências da Universidade do Porto (INESC TEC/CRACS - Centro de Sistemas de Computação Avançada) and Carnegie Mellon University's School of Computer Science
- Developed work in the Services' section of the Hyrax Project, most precisely, developing a data structure (for DiCE section), to be replicated for Mobile and Handheld Devices, in a notion of collaborative network, using Crowd-Sourcing features and shifting all the data processing and information services closer to the final users
- LaTeX Article/Paper (Portuguese Version)
- Final Presentation
